

INDEPENDENT AUDITOR'S REPORT

To the Members of Lumax Ituran Telematics Private Limited

Report on the Standalone Ind AS Financial Statements

1. Opinion

We have audited the accompanying Standalone Ind AS financial statements of **Lumax Ituran Telematics Private Limited** ("the Company"), which comprise the Balance Sheet as at 31st March, 2023 and the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to financial statements, including a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2023, and its Loss, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

2. Basis for Opinion

We conducted our audit in accordance with standards on auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in Auditor's Responsibilities for the audit of the Financial Statements section of our report. We are independent of the company in accordance with the Code of Ethics issued by Institute of Chartered Accountants of India together with ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

3. Key Audit Matters

Key Audit Matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. Those matters were addressed in context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

4. Other Information

The Company's management and Board of Directors are responsible for the preparation of the other information. The other information comprises the information included in the Board's Report but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

5. Management's Responsibility for the Standalone Ind AS Financial Statements

The Company's management and Board of Directors are responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Standalone Ind AS financial statements that gives a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act, read with relevant rules issued thereunder. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Ind AS financial statements that gives a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing financial statements, management is responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the company or to cease operations, or has no realistic alternative to do so.

The Board of Directors are also responsible for overseeing the company's financial reporting process.

6. Auditor's Responsibility

Our objectives are to obtain reasonable assurance about whether the Standalone Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedure responsive to those risks and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentation or the override of internal controls.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedure that are appropriate in the circumstances.
- Evaluate the appropriateness of accounting policies used and reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management use of the going concern basis of accounting and based on the audit evidence obtain whether a material uncertainty exist related to events or condition that may cause significant doubt of the company's ability to continue as going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or if such disclosure are inadequate to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However future events or conditions may cause the company to cease to continue as a going concern.
- Evaluate the overall presentation structure and content of the standalone financial statements including the disclosures and whether the standalone financial statements represent the underline transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding among other matters the planned scope and timing of the audit and significant findings that we identify during our audit.

We also provide those charged with the governance with a statement that we are compiled with relevant ethical requirements regarding independence and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independent and where applicable related safeguards.

7. Report on Other Legal and Regulatory Requirements

I. As required by the Companies (Auditor's Report) Order, 2020 ("the order") issued by the Central Government of India in terms of section 143(11) of the Act and on the basis of such checks of the books and records of the company as we considered appropriate and according to the information and explanations given to us, we give in the Annexure A, a statement on the matters specified in the paragraph 3 and 4 of the Order.

A) As required by Section 143 (3) of the Act, we report , to the extent applicable that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- c) The Balance Sheet, Statement of Profit and Loss (including other comprehensive income), Statement of Cash Flows and the statement of change in equity dealt with by this Report are in agreement with the books of account maintained for the purpose of preparation of the aforesaid Ind AS financial statements.
- d) In our opinion, the aforesaid Ind AS financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act.
- e) On the basis of the written representations received from the directors as on 31st March, 2023 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2023 from being appointed as a director in terms of Section 164 (2) of the Act;
- f) Since turnover of the company as per latest audited financial statement is less than Rs. Fifty Crores and the aggregate borrowings from Banks or Financial institutions or anybody corporate is less than Rs. Twenty-Five Crores during the year under report, reporting on the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls is not required vide notification dated 13th June 2017 issued by Ministry of Corporate affairs, Government of India.

B) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 and as per provision of section 197(16) of the Companies Act, 2013, in our opinion and to the best of our information and according to the explanations given to us:

- i. The Company does not have any pending litigations which would impact its financial position in its Ind AS financial statements;

DIN: 00004993

1. Corporate information

The company was incorporated on 14th August, 2017 with the object to design, develop, import & export, assemble, market, sale, distribute & maintain hardware, software, websites, content management systems, web based information system, network management and other related programs to be used in Telematics/ Connected Vehicles, Fleet management, Fleet management systems interface (FMS), Real time locating system (RTLS), Banking, Insurance for automotive & automobile industry and other related fields. The registered office of the company is situated at 2nd Floor, Harbans Bhawan-II Commercial Complex, Nangal Raya, New Delhi 110046.

2 Significant accounting policies

This note provides a list of the significant accounting policies adopted in the preparation of these Indian Accounting Standards (Ind-AS) financial statements.

These policies have been consistently applied to all the years except where newly issued accounting standard is initially adopted.

2.1 Basis of Preparation

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III), as applicable to the financial Statements.

The financial statements have been prepared on a historical cost basis, except for the financial assets and liabilities which have been measured at fair value or revalued amount.

The Financial Statements are presented in Indian Rupees (Rs.) and all values are rounded to the nearest lakhs, except wherever otherwise stated.

2.2 Summary of significant accounting policies

a. Current versus non-current classification

The Company presents assets and liabilities in the balance sheet are based on current/ non-current classification.

Assets

An asset is treated as current when it is:

- a) Expected to be realised or intended to be sold or consumed in normal operating cycle
- b) Held primarily for the purpose of trading
- c) Expected to be realised within twelve months after the reporting period, or
- d) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

Liabilities

A liability is current when:

- (a) It is expected to be settled in normal operating cycle
- (b) It is held primarily for the purpose of trading
- (c) It is due to be settled within twelve months after the reporting period, or
- (d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Operating cycle

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

b. Property, plant and equipment

Property, plant and equipment and capital work in progress are stated at cost less accumulated depreciation and accumulated impairment losses, if any.

Such cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct services, any other costs directly attributable to bringing the assets to its working condition for their intended use and cost of replacing part of the plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met.

An item of property, plant and equipment and any significant part initially recognised is de-recognised upon disposal or when no future economic benefits are expected from its use. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss within other income.

Subsequent costs

The cost of replacing a part of an item of property, plant and equipment is recognised in the carrying amount of the item of property, plant and equipment, if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably with the carrying amount of the replaced part getting derecognised. The cost for day-to-day servicing of property, plant and equipment are recognised in statement of profit and loss as and when incurred.

Capital work in progress

Capital work in progress comprises the cost of tangible assets that are not ready for their intended use at the reporting date.

Depreciation

Depreciation is calculated on a straight-line basis over the estimated useful lives as estimated by the management which is in line with Schedule II to the Companies Act, 2013. The Company has used the following useful lives to provide depreciation on its property, plant and equipment which is in line with schedule II:

Assets	Useful Lives estimated by the management (in years)
Lease Hold Improvement	6
Tracking Devices (GPS)	2 - 3
Electric Installation	10
Moulds & Dies	9
Furniture & Fixtures	10
Office Equipments	5
Vehicles	5
Computers	3

c. Intangible assets and Intangible assets under development

Recognition and measurement

Intangible assets that are acquired by the Company are measured initially at cost. Intangible assets with finite useful lives are measured at cost less accumulated amortisation.

Amortisation and useful lives

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

Intangible Assets	Estimated Useful Life (Years)
Computer Software	Over the estimated economic useful live i.e., 4 years

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

d. Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

e. Foreign currencies

Functional and presentational currency

The Company's financial statements are presented in Indian Rupees (INR) which is also the Company's functional currency.

Transactions and balances

Transactions in foreign currencies are initially recorded by the Company at the functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Differences arising on settlement or translation of monetary items are recognised in statement of profit and loss.

Non-monetary assets and liabilities denominated in foreign currencies are not retranslated.

f. Revenue from contract with customer

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The Company has generally concluded that it is the principal in its revenue arrangements, because it typically controls the goods before transferring them to customer.

However, Goods and services tax (GST) is not received by the Company on its own account. Rather, it is tax collected on value added to the commodity by the seller on behalf of the government. Accordingly, it is excluded from revenue.

(a) Sale of Goods

Revenue from sale of goods is recognized at the point in time when control of the inventory is transferred to the customer, generally on delivery of the equipment. The normal credit term is 30 to 90 days upon delivery.

(b) Service Income

Revenues from services are recognized pro-rata over the period of the contract as and when services are rendered. The Company collects Goods & Service Tax (“GST”) on behalf of the government and, therefore, it is not an economic benefit flowing to the Company. Hence, it is excluded from revenue.

(c) Interest Income

Interest income on bank deposits is recognized on a time proportion basis taking into account the amount outstanding and the applicable interest rate. Interest income is included under the head “other income” in the statement of profit and loss.

g. Leases

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-to-use assets representing the right to use the underlying assets.

i. Lease Liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

ii. Short-term leases and leases of Low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

h. Inventories

Inventories which comprise raw materials, traded goods and stores and spares are valued at the lower of cost and net realisable value.

The basis of determining costs for various categories of inventories is as follows:

- **Raw materials, components, stores and spares:** Cost of inventories comprises all cost of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted moving average basis.
- **Traded goods:** Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on moving weighted average basis.

Stores and spares which do not meet the definition of Property, plant and equipment are accounted as inventories.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

Scraps are valued at net realisable value

i. Retirement and other employee benefits

Retirement benefit in the form of provident fund is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund. The Company recognizes contribution payable to the provident fund scheme as an expense, when an employee renders the related service.

- The Company operates defined benefit plans for its employees, viz., gratuity. The costs of providing benefits under these plans are determined based on actuarial valuation at each year-end. Separate actuarial valuation is carried out for each plan using the projected unit credit method. Actuarial gains and losses for both defined benefit plans are recognized in full in the period in which they occur in the statement of profit and loss.
- Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.
- The Company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purpose. Such long term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end.

The company presents the leave as a current liability in the balance sheet to the extent it does not have an unconditional right to defer its settlement for 12 months after the reporting date. Where company has the unconditional legal and contractual right to defer the settlement for a period beyond 12 months, the same is presented as non-current liability.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods.

Past service costs are recognised in profit or loss on the earlier of:

- a) The date of the plan amendment or curtailment, and
- b) The date that the Company recognises related restructuring costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognizes the following changes in the net defined benefit obligation as an expense in the statement of profit and loss:

- a) Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- b) Net interest expense or income

j. Provisions (other than employee benefits)

General

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

When the Company expects some or all of a provision to be reimbursed, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain.

The expense relating to a provision is presented in the statement of profit and loss, net of any reimbursement. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. The unwinding of discount is recognised in the statement of profit and loss as a finance cost.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources would be required to settle the obligation, the provision is reversed.

k. Financial instruments

A financial instrument is a contract that gives rise to a financial asset for one entity and a financial liability or equity instrument for another entity.

Financial Assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Financial Liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings etc.

l. Taxes

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognized outside profit or loss is recognized outside profit or loss (either in other comprehensive income (OCI) or in equity). Current tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences.

Lumax Ituran Telematics Private Limited
Notes to the financial statements for the year ended March 31, 2023

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except when the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

m. Impairment of financial assets

In accordance with Ind-AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

Financial assets that are debt instruments, and are initially measured at fair value with subsequent measurement at amortised cost e.g., trade and other receivables, security deposits, loan to employees, etc.

The Company follows 'simplified approach' for recognition of impairment loss allowance for trade receivables.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original effective interest rate.

As a practical expedient, the Company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historically observed default rates are updated and changes in the forward-looking estimates are analysed.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as an expense in the statement of profit and loss.

n. Impairment of non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating units' (CGU) net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

Impairment losses on non-financial asset, including impairment on inventories, are recognized in the statement of profit and loss.

An assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit or loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

o. Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

p. Earnings per share (EPS)

Basic EPS amounts are calculated by dividing the Profit/ Loss for the year attributable to the shareholders of the Company by the weighted average number of equity shares outstanding as at the end of reporting period.

Diluted EPS amounts are calculated by dividing the Profit/ Loss attributable to the shareholders of the Company by the weighted average number of equity shares outstanding during the year plus the weighted average number of Equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares.

q. Contingent liabilities and assets

A contingent liability exists when there is a possible but not probable obligation, or a present obligation that may, but probably will not, require an outflow of resources, or a present obligation whose amount cannot be estimated reliably. Contingent liabilities do not warrant provisions, but are disclosed unless the possibility of outflow of resources is remote. Contingent assets are neither recognised nor disclosed in the financial statements. However, contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognised in the period in which the change occurs.

r. Segment reporting

Identification of segments

The company's business activity falls within a single business segment, there are no disclosures to be provided.

2.3 Significant accounting judgements, estimates and assumptions

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

2.4 Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

a) Defined benefit plans

The present value of the gratuity is determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation. The mortality rate is based on publicly available mortality tables for the specific countries. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates for the respective countries.

b) Property, plant and equipment

Refer note 2.2 (b) for the estimated useful life of property, plant and equipment. The carrying value of property, plant and equipment has been disclosed in note 3.

c) Intangible assets

Refer note 2.2 (c) for the estimated useful life of intangible assets. The carrying value of intangible assets has been disclosed in note 4.

3. Property, plant and equipment and capital work in progress

The disaggregation of changes to OCI by each type of reserve in equity:

	For the Year Ended March 31, 2023	For the Year Ended March 31, 2022
Re-measurement gains/ (losses) on defined benefit plans	0.41	-
Deferred tax thereon	-	-
	0.41	-

28 Earnings per share (EPS)

- a) Basic EPS amounts are calculated by dividing the profit for the year attributable to equity holders of the Company by the weighted average number of equity shares outstanding during the year. Basic and diluted EPS are same as there are no convertible financial instruments outstanding as on March 31, 2023
- b) Diluted EPS amount are calculated by dividing the profit attributable to equity holders of the company (after adjusting for interest on the convertible preference shares) by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares.
- c) The following reflects the income and share data used in the basic and diluted EPS computations:

	For the Year Ended March 31, 2023	For the Year Ended March 31, 2022
Profit attributable to the equity holders of the Company	(193.40)	(112.69)
Weighted average number of equity shares for basic and diluted EPS	45.92	41.04
Basic and diluted earnings per share (face value Rs. 10 per share, PY Rs. 10 per share) (Rs.)	(4.21)	(2.75)
Basic and diluted earnings per share (face value Rs. 10 per share, PY Rs. 10 per share) (Rs.)	(4.21)	(2.75)

- d) There has not been any transactions involving equity shares or potential equity shares between the reporting date and the date of authorisation of these consolidated financial statements.

-----This space has been intentionally left blank-----

29 Gratuity and other post-employment benefit plans

The gratuity plan is governed by the Payment of Gratuity Act, 1972. Under the act, employee who has completed five years of service is entitled to specific benefit. The level of benefits provided depends on the member's length of service and salary at retirement age. The scheme is funded with an insurance company in the form of qualifying insurance policy.

A) Defined contribution plans

During the year, the Company has recognized the following amounts in the statement of profit and loss :

	For the Year Ended March 31, 2023	For the Year Ended March 31, 2022
Employer's contribution to provident fund	2.92	3.25

32 Financial risk management objectives and policies

The Company's principal financial liabilities comprise of trade and other payables, borrowings, security deposits and payables for property, plant and equipment. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include trade and other receivables, cash, fixed deposits and security deposits that derive directly from its operations.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks. The Company's senior management is supported by Finance department that advises on financial risks and the appropriate financial risk governance framework for the Company. The Finance department provides assurance to the Company's senior management that the Company's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. It is the company's policy that no trading in derivatives for speculative purposes may be undertaken. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below.

A. Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk.

The sensitivity analyses in the following sections relate to the position as at March 31, 2023 and March 31, 2022.

The analyses exclude the impact of movements in market variables on: the carrying values of gratuity and other post-retirement obligations; provisions; and the non-financial assets and liabilities.

i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's interest bearing financial liabilities includes borrowings with fixed interest rates.

The Company's fixed rate borrowings are carried at amortised cost. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

B. Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and other financial instruments.

i) Trade receivables

Customer credit risk is managed by each Company subject to the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on an extensive credit rating. Outstanding customer receivables are regularly monitored.

An impairment analysis is performed at each reporting date on an individual basis for all clients. The Company evaluates the concentration of risk with respect to trade receivables as low.

C. Liquidity risk

Liquidity risk is the risk that the Company may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses.

The Company's objective is to, at all times maintain optimum levels of liquidity to meet its cash and collateral requirements. The Company closely monitors its liquidity position and deploys a robust cash management system. It maintains adequate sources of financing including loans from banks at an optimised cost.

The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments:

As at March 31, 2023	On Demand	Less than 1 year	1 to 5 years	> 5 years	Total
Borrowings	-	149.06	645.18	27.43	821.67
Trade and other payables	-	223.08	-	-	223.08
Other financial liabilities	-	28.75	-	-	28.75
Total	-	400.89	645.18	27.43	1,073.50

As at March 31, 2022	On demand	Less than 1 year	1 to 5 years	> 5 years	Total
Borrowings	-	58.13	447.38	55.92	561.43
Trade and other payables	-	69.53	-	-	69.53
Other financial liabilities	-	67.38	-	-	67.38
Total	-	195.04	447.38	-	698.34
