C. RATIONALE FOR THE SCHEME OF ARRANGEMENT

- The Transferor Company is a wholly owned subsidiary of Transferee Company and managed by same set of management. Also, both the Companies are engaged in the similar line of business, hence, after consolidation of both the companies in a single entity, management would be able to effectively manage the Transferor Company and Transferee Company as a single entity, which will provide several benefits including streamlined group structure by reducing the number of legal entities engaged in similar nature of business, reducing the multiplicity of legal and regulatory compliances, rationalizing costs etc.
- The amalgamation will contribute in furthering and fulfilling the objectives and business strategies of both the companies thereby accelerating growth, expansion and development of the respective businesses through the Transferee Company. The amalgamation will thus enable further expansion of the Transferee Company and provide a strong and focused base to undertake the business more advantageously. Further, this arrangement would bring concentrated management focus, integration, streamlining of the management structure, seamless implementation of policy changes and shall also help enhance the efficiency and control of the Transferor Company and Transferee Company.
- Further, the independent operations of the Transferor Company and Transferee Company leads to incurrance of significant costs, duplication of administrative & establishment costs and the amalgamation would enable economies of scale by attaining critical mass and achieving cost saving and better financial management of resources. The amalgamation will thus eliminate a multi-layered structure and reduce managerial overlaps, which are necessarily involved in running multiple entities and also prevent cost duplication that can erode financial efficiencies of a holding structure and the resultant operations would be substantially cost-efficient. This Scheme would result in simplified corporate structure of the Transferee Company and its businesses, thereby leading to more efficient utilization of capital and creation of a consolidated base for future growth of the Transferee Company.

Page | 4 of 19

- The Amalgamation of Transferor Company and Transferee Company will create synergy benefits for the stakeholders of both the Companies and it shall optimize the valuation of the consolidated Transferee Company. The amalgamation would also increase operational efficiency and integrate business functions.
 - The proposed arrangement will provide greater integration and flexibility to the Transferee Company and strengthen its position in the industry, in terms of the asset base, revenues and service range.
 - The other benefits the proposed amalgamation include:
 - I. Optimum and efficient utilization of financial resources and rationalization of capital, resources, assets and facilities;
 - II. Enhancement of competitive strengths including financial resources;
 - III. Obtaining synergy benefits;
 - IV. Better management and focus on growing the businesses due to reduction of managerial overlaps which are necessarily involved in running multiple entities;
 - V. Reduction of overheads, administrative, managerial and other expenditure;
 - VI. Simplification of corporate structure, by way of reducing the number of entities in the group;
- D. The Board of Directors of both the Companies, therefore, considered it desirable and expedient to amalgamate the Transferor Company with the Transferee Company.
- E. The amalgamation of the Transferor Company with the Transferee Company, pursuant to and in accordance with this Scheme, under Section 230-232 and other relevant provisions of the Companies Act, 2013 and applicable Rules of Companies (Compromises, Arrangements and Amalgamations) Rules, 2016, subject to sanction of Hon'ble National Company Law Tribunal (NCLT) of relevant jurisdiction, shall take place with effect from the Appointed Date and shall be in compliance with Section 2(1B) of the Income Tax Act, 1961.
