

Independent Auditor's Report

To the Members of Lumax Auto Technologies Limited

REPORT ON THE AUDIT OF THE CONSOLIDATED IND AS FINANCIAL STATEMENTS

Opinion

We have audited the accompanying consolidated Ind AS financial statements of Lumax Auto Technologies Limited (hereinafter referred to as "the Holding Company"), its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") and joint ventures comprising of the consolidated Balance sheet as at March 31, 2020, the consolidated Statement of Profit and Loss, including other comprehensive income, the consolidated Cash Flow Statement and the consolidated statement of Changes in Equity for the year then ended, and notes to the consolidated Ind AS financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated Ind AS financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated Ind AS financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group, its joint ventures as at March 31, 2020, their consolidated profit including other comprehensive income, their consolidated cash flows and the consolidated statement of changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated Ind AS financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Consolidated Ind AS Financial Statements' section of our report. We are independent of the Group, joint ventures in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the

ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated Ind AS financial statements.

Emphasis of Matter

We draw attention to Note 56 to the financial statements, which describes the uncertainties arising due to Covid-19 pandemic on the Group operations and its joint venture and estimates as assessed by the management. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated Ind AS financial statements for the financial year ended March 31, 2020. These matters were addressed in the context of our audit of the consolidated Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the consolidated Ind AS financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated Ind AS financial statements. The results of audit procedures performed by us and by other auditors of components not audited by us, as reported by them in their audit reports furnished to us by the management, including those procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated Ind AS financial statements.

Independent Auditor's Report (Contd.)

Key audit matters	How our audit addressed the key audit matter
Various pricing liabilities and its impact on recognition of revenue (as described in Note 50 of the [Consolidated] Ind AS financial statements)	
<p>Revenue is measured by the Holding Company at the fair value of consideration received/ receivable from its customers and in determining the transaction price for the sale of products, the Holding Company considers the effects of variable consideration such as price adjustment to be passed on to the customers based on various parameters like negotiation based on savings on material and other factors.</p> <p>The Holding Company business requires passing on these credits to the customers once negotiation are finally settled for the sales made by the Holding Company during the year. The estimated liabilities based on various negotiation documents/ consideration at year end is shown in note 50 to the financial statements and the consequential impact on revenue is disclosed in note 50 to the financial statements.</p> <p>We have considered this as a key audit matter on account of the significant judgement and estimate involved in calculation of price adjustments to be recorded as at the year end.</p>	<p>Our audit procedures included:</p> <ul style="list-style-type: none"> Assessed the Holding Company's accounting policy for revenue recognition including the policy for recording price adjustments in terms of Ind AS 115. Obtained an understanding of the revenue process, and the assumptions used by the management in the process of calculation of price adjustments as per the customer contracts, including design and implementation of controls, validation of management review controls and tested the operating effectiveness of these controls. Evaluated management's methodology and assumptions used in the calculations of price adjustments as per customer contracts. Tested completeness, arithmetical accuracy and validity of the data used in the computation of price adjustments as per customer contracts. Tested, on sample basis, credit notes issued and payments made as per customer contracts/ agreed price negotiations Performed various analytical procedures to identify any unusual trends and identify unusual items for further testing.

Other Information

The Holding Company's Board of Directors are responsible for the other information. The other information comprises of the information included in the Annual report but does not include the consolidated Ind AS financial statements and our auditor's report thereon.

Our opinion on the consolidated Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard

Responsibilities of Management for the Consolidated Ind AS Financial Statements

The Holding Company's Board of Directors are responsible for the preparation and presentation of these consolidated

Ind AS financial statements in terms of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated statement of changes in equity of the Group including its joint ventures in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. The respective Board of Directors of the companies included in the Group and of its joint ventures are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and of its joint ventures and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated Ind AS financial statements that give a true and fair view and

Independent Auditor's Report (Contd.)

are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated Ind AS financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated Ind AS financial statements, the respective Board of Directors of the companies included in the Group and of its joint ventures are responsible for assessing the ability of the Group and of its joint ventures to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those respective Board of Directors of the companies included in the Group and of its joint ventures are also responsible for overseeing the financial reporting process of the Group and of its joint ventures.

Auditor's Responsibilities for the Audit of the Consolidated Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to

the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its joint ventures to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its joint ventures to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated Ind AS financial statements, including the disclosures, and whether the consolidated Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its joint ventures of which we are the independent auditors, to express an opinion on the consolidated Ind AS financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated Ind AS financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Independent Auditor's Report (Contd.)

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated Ind AS financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated Ind AS financial statements for the financial year ended March 31, 2020 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

- (a) We did not audit the financial statements and other financial information, in respect of six subsidiaries, whose Ind AS financial statements include total assets of ₹ 18,768.54 lakhs as at March 31, 2020, and total revenues of ₹ 17,964.47 lakhs and net cash outflows of ₹ 629.69 lakhs for the year ended on that date. These Ind AS financial statement and other financial information have been audited by other auditors, which financial statements, other financial information and auditor's reports have been furnished to us by the management. The consolidated Ind AS financial statements also include the Group's share of net loss of ₹ 30.10 lakhs for the year ended March 31, 2020, as considered in the consolidated Ind AS financial statements, in respect of one and joint venture and one joint venture of one of the subsidiary Company, whose financial statements, other financial information have been audited by other auditors and whose reports have been furnished to us by the Management. Our opinion on the consolidated Ind AS financial statements, in so far as it relates to the

amounts and disclosures included in respect of these subsidiaries, joint ventures, and our report in terms of sub-sections (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries, joint ventures, is based solely on the report(s) of such other auditors.

Our opinion above on the consolidated Ind AS financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements and other financial information certified by the Management.

Report on Other Legal and Regulatory Requirements

As required by Section 143(3) of the Act, [based on our audit and on the consideration of report of the other auditors on separate financial statements and the other financial information of subsidiaries, and joint ventures, as noted in the 'other matter' paragraph we report, to the extent applicable, that:

- (a) We/the other auditors whose report we have relied upon have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated Ind AS financial statements;
- (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidation of the financial statements have been kept so far as it appears from our examination of those books and reports of the other auditors;
- (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Consolidated Cash Flow Statement and Consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the books of account maintained for the purpose of preparation of the consolidated Ind AS financial statements;
- (d) In our opinion, the aforesaid consolidated Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
- (e) On the basis of the written representations received from the directors of the Holding Company as on March 31, 2020 taken on record by the Board of Directors of

Independent Auditor's Report (Contd.)

the Holding Company and the reports of the statutory auditors who are appointed under Section 139 of the Act, of its subsidiary companies, and joint ventures, none of the directors of the Group's companies, its joint ventures, incorporated in India, is disqualified as on March 31, 2020 from being appointed as a director in terms of Section 164 (2) of the Act;

- (f) With respect to the adequacy and the operating effectiveness of the internal financial controls over financial reporting with reference to these consolidated Ind AS financial statements of the Holding Company and its subsidiary companies, and joint ventures, incorporated in India, refer to our separate Report in "Annexure 1" to this report;
- (g) In our opinion the managerial remuneration for the year ended March 31, 2020 has been paid / provided by the Holding Company and one of its subsidiary to their directors in accordance with the provisions of section 197 read with Schedule V to the Act. Further this clause does not apply to the remaining seven subsidiaries and joint ventures of the company;
- (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the report of the other auditors on separate financial statements as

also the other financial information of the subsidiaries, and joint ventures, as noted in the 'Other matter' paragraph:

- i. The consolidated Ind AS financial statements disclose the impact of pending litigations on its consolidated financial position of the Group, its and joint ventures in its consolidated Ind AS financial statements – Refer Note 40(b) to the consolidated Ind AS financial statements;
- ii. The Group, its and joint ventures did not have any material foreseeable losses in long-term contracts including derivative contracts during the year ended March 31, 2020;
- iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Holding Company, its subsidiaries, and joint ventures, incorporated in India during the year ended March 31, 2020.

Annexure 1 To the Independent Auditor's Report of even date on the consolidated financial statements of Lumax Auto Technologies Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of Lumax Auto Technologies Limited as of and for the year ended March 31, 2020, we have audited the internal financial controls over financial reporting of Lumax Auto Technologies Limited (the "Holding Company") its subsidiaries (together, the "Group") and its joint ventures which are the companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the of the Holding Company, its subsidiaries and joint ventures which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, both, issued by Institute of Chartered Accountants of India, and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting with reference to these Consolidated Financial Statements

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls,

Annexure 1 To the Independent Auditor's Report of even date on the consolidated financial statements of Lumax Auto Technologies Limited (Contd.)

material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Group, and its joint venture which are companies incorporated in India, have, maintained in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls

over financial reporting of the Company, insofar as it relates to its subsidiaries and joint venture incorporated in India, is based on the corresponding report of the auditors of such, subsidiaries and joint venture incorporated in India. Further, the auditors of three subsidiaries and one joint venture Company have not issued report on adequacy and operating effectiveness of the internal control over financial reporting as they are of the view that these companies are exempt with respect to reporting requirement on internal financial controls over financial reporting vide MCA notification no. G.S.R. 583(E) dated June 13, 2017 hence, the same is not covered by us in our report on internal financial controls over financial reporting.

Notes to the Consolidated financial statements

For the year ended March 31, 2020

(All amounts are presented in ₹ Lakhs, unless otherwise stated)

1. CORPORATE INFORMATION

The Consolidated financial statements comprise financial statements of Lumax Auto Technologies Limited (the Holding Company) its subsidiaries (collectively, the Group) and Joint ventures for the year ended March 31, 2020. The Holding Company is a public Company domiciled in India and is incorporated under the provisions of the Companies Act applicable in India. Its shares are listed on two recognised stock exchanges in India. The registered office of the Group is located 2nd Floor, Harbans Bhawan-II, Commercial Complex, Nangal Raya, New Delhi- 110046.

The Group is principally engaged in the manufacturing of automotive components. Information on the Group's structure is provided in Note 38. Information on other related party relationships of the Group is provided in Note 41.

During the year, The Holding company has received approval from the National Company Law Tribunal (NCLT) on October 31, 2019 (filed with Registrar of Companies on November 09, 2019) in respect of Scheme of Amalgamation in accordance with Section 230 to 232 of the Companies Act 2013, among the Holding Company and its Subsidiary Lumax DK Auto Industries Limited ("LDK"). Appointed date as per Scheme is April 01, 2018 and accordingly, the Holding Company has given effect of the Scheme in these financial results in accordance with the Scheme and applied principles of Appendix C to Ind-AS-103 - 'Business Combinations of entities under Common Control' w.e.f April 01, 2018. Further March 31, 2019 of LDK was audited by another firm of Chartered Accountants. (Refer note 38 (c) for detailed disclosures in this regard).

The financial statements were authorised for issue in accordance with a resolution of the directors on June 17, 2020.

2. SIGNIFICANT ACCOUNTING POLICIES

This note provides a list of the significant accounting policies adopted in the preparation of these Indian Accounting Standards (Ind-AS) financial statements.

These policies have been consistently applied to all the years except where newly issued accounting standard is initially adopted.

2.1 Basis of Preparation

The consolidated financial statements of the Group have been prepared in accordance with Indian Accounting

Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III), as applicable to the financial statement.

The consolidated financial statements have been prepared on a historical cost basis, except for the financial assets and liabilities which have been measured at fair value or revalued amount.

The consolidated Financial Statements are presented in Indian Rupees (₹) and all values are rounded to the nearest lakhs (₹ 00,000), except wherever otherwise stated.

2.2 Basis of consolidation

The consolidated financial statements comprise the financial statements of the Holding Company, its subsidiaries and its joint venture as at March 31, 2020. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns.

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- Rights arising from other contractual arrangements.
- The Group's voting rights and potential voting rights.
- The size of the group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders.

Notes to the Consolidated financial statements

For the year ended March 31, 2020 (Contd.)

(All amounts are presented in ₹ Lakhs, unless otherwise stated)

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent Group, i.e., year ended on March 31, 2020.

Consolidation procedure:

- Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the consolidated financial statements at the acquisition date.
- Offset (eliminate) the carrying amount of the Holding Company investment in each subsidiary and the Holding Company portion of equity of each subsidiary. Business combinations policy explains how to account for any related goodwill.
- Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognised in assets, such as inventory and fixed assets, are eliminated in full). Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS 12 Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.
- Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the Holding Company of the

Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

2.3 Summary of significant accounting policies

A. Changes in accounting policies and disclosures

The Group applied Ind AS 116 Leases for the first time. The nature and effect of the changes as a result of adoption of this new accounting standard is described below.

Several other amendments apply for the first time for the year ending 31 March 2019, but do not have an impact on the financial statements of the Group. The Group has not early adopted any standards, amendments that have been issued but are not yet effective/notified.

i. Ind AS 116 Leases

Ind AS 116 supersedes Ind AS 17 Leases including its appendices (Appendix C of Ind AS 17 Determining whether an Arrangement contains a Lease, Appendix A of Ind AS 17 Operating Leases-Incentives and Appendix B of Ind AS 17 Evaluating the Substance of Transactions Involving the Legal Form of a Lease). The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to recognise most leases on the balance sheet. Lessor accounting under Ind AS 116 is substantially unchanged from Ind AS 17. Lessors will continue to classify leases as either operating or finance leases using similar principles as in Ind AS 17. Therefore, Ind AS 116 does not have an impact for leases where the Group is the lessor. The Group adopted Ind AS 116 using the modified retrospective method of adoption, with the date of initial application being April 01, 2019. The Group elected to use the transition practical expedient to not reassess whether a contract is, or contains, a lease at April 01, 2019. Instead, the Group

Notes to the Consolidated financial statements

For the year ended March 31, 2020 (Contd.)

(All amounts are presented in ₹ Lakhs, unless otherwise stated)

applied the standard only to contracts that were previously identified as leases applying Ind AS 17 and Appendix C of Ind AS 17 at the date of initial application. The Group also elected to use the recognition exemptions for lease contracts that, at the commencement date, have a lease term of 12 months or less and do not contain a purchase option (short-term leases), and lease contracts for which the underlying asset is of low value (low-value assets).

Upon adoption of Ind AS 116, the Group applied a single recognition and measurement approach for all leases for which it is the lessee, except for short-term leases and leases of low-value assets. The Group recognised lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets. In accordance with the modified retrospective method of adoption, the Group recorded the lease liability at the present value of the remaining lease payments discounted at the incremental borrowing rate as on the date of transition and has measured right of use asset an amount equal to lease liability.

Refer note 5 for detailed impact on adoption of Ind AS 116 "Leases" on the financial statements of the Group.

ii. Appendix C to Ind AS 12 Uncertainty over Income Tax Treatment

The appendix addresses the accounting for income taxes when tax treatments involve uncertainty that affects the application of Ind AS 12 and does not apply to taxes or levies outside the scope of Ind AS 12, nor does it specifically include requirements relating to interest and penalties associated with uncertain tax treatments. The Interpretation specifically addresses the following:

1. Whether an entity considers uncertain tax treatments separately
2. The assumptions an entity makes about the examination of tax treatments by taxation authorities

3. How an entity determines taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates
4. How an entity considers changes in facts and circumstances.

The Group determines whether to consider each uncertain tax treatment separately or together with

one or more other uncertain tax treatments and uses the approach that better predicts the resolution of the uncertainty. In determining the approach that better predicts the resolution of the uncertainty, the Group has considered, for example; (a) how it prepares its income tax filings and supports tax treatments; or (b) how the entity expects the taxation authority to make its examination and resolve issues that might arise from that examination.

The Group determined, based on its tax compliance, that it is probable that its tax treatments will be accepted by the taxation authorities. The Appendix did not have an impact on the consolidated financial statements of the Group.

iii. Amendments to Ind AS 109: Prepayment Features with Negative Compensation

Under Ind AS 109, a debt instrument can be measured at amortised cost or at fair value through other comprehensive income, provided that the contractual cash flows are 'solely payments of principal and interest on the principal amount outstanding' (the SPPI criterion) and the instrument is held within the appropriate business model for that classification. The amendments to Ind AS 109 clarify that a financial asset passes the SPPI criterion regardless of the event or circumstance that causes the early termination of the contract and irrespective of which party pays or receives reasonable compensation for the early termination of the contract.

These amendments have no impact on the Consolidated financial statements of the Group.

Notes to the Consolidated financial statements

For the year ended March 31, 2020 (Contd.)

(All amounts are presented in ₹ Lakhs, unless otherwise stated)

iv. Amendments to Ind AS 19: Plan Amendment, Curtailment or Settlement

The amendments to Ind AS 19 address the accounting when a plan amendment, curtailment or settlement occurs during a reporting period.

The amendments specify that when a plan amendment, curtailment or settlement occurs during the annual reporting period, an entity is required to:

- Determine current service cost for the remainder of the period after the plan amendment, curtailment or settlement, using the actuarial assumptions used to remeasure the net defined benefit liability (asset) reflecting the benefits offered under the plan and the plan assets after that event.
- Determine net interest for the remainder of the period after the plan amendment, curtailment or settlement using: the net defined benefit liability (asset) reflecting the benefits offered under the plan and the plan assets after that event; and the discount rate used to remeasure that net defined benefit liability (asset).

The amendments had no impact on the consolidated financial statements of the Group as it did not have any plan amendments, curtailments, or settlements during the period.

v. Amendments to Ind AS 28: Long-term interests in associates and joint ventures

The amendments clarify that an entity applies Ind AS 109 to long-term interests in an associate or joint venture to which the equity method is not applied but that, in substance, form part of the net investment in the associate or joint venture (long term interests). This clarification is relevant because it implies that the expected credit loss model in Ind AS 109 applies to such long-term interests.

The amendments also clarified that, in applying Ind AS 109, an entity does not take account of any losses of the associate or joint venture, or any impairment losses on the net investment, recognised as adjustments to

the net investment in the associate or joint venture that arise from applying Ind AS 28 Investments in Associates and Joint Ventures.

These amendments had no impact on the consolidated financial statements as the Group is in compliance with the said amendment.

Annual Improvements to Ind AS 2018

i. Ind AS 103 Business Combinations

The amendments clarify that, when an entity obtains control of a business that is a joint operation, it applies the requirements for a business combination achieved in stages, including remeasuring previously held interests in the assets and liabilities of the joint operation at fair value. In doing so, the acquirer remeasures its entire previously held interest in the joint operation.

An entity applies those amendments to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after 1 April 2019.

These amendments had no impact on the consolidated financial statements of the Group as there is no transaction where joint control is obtained.

ii. Ind AS 111 Joint Arrangements

An entity that participates in, but does not have joint control of, a joint operation might obtain joint control of the joint operation in which the activity of the joint operation constitutes a business as defined in Ind AS 103. The amendments clarify that the previously held interests in that joint operation are not remeasured.

An entity applies those amendments to transactions in which it obtains joint control on or after the beginning of the first annual reporting period beginning on or after 1 April 2019.

These amendments had no impact on the consolidated financial statements of the Group as there is no transaction where a joint control is obtained.

Notes to the Consolidated financial statements

For the year ended March 31, 2020 (Contd.)

(All amounts are presented in ₹ Lakhs, unless otherwise stated)

iii. Ind AS 12 Income Taxes

The amendments clarify that the income tax consequences of dividends are linked more directly to past transactions or events that generated distributable profits than to distributions to owners. Therefore, an entity recognises the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where it originally recognised those past transactions or events.

An entity applies the amendments for annual reporting periods beginning on or after 1 April 2019.

Since the Group's current practice is in line with these amendments, they had no impact on the consolidated financial statements of the Group.

iv. Ind AS 23 Borrowing Costs

The amendments clarify that an entity treats as part of general borrowings any borrowing originally made to develop a qualifying asset when substantially all of the activities necessary to prepare that asset for its intended use or sale are complete.

The entity applies the amendments to borrowing costs incurred on or after the beginning of the annual reporting period in which the entity first applies those amendments. An entity applies those amendments for annual reporting periods beginning on or after 1 April 2019.

Since the Group's current practice is in line with these amendments, they had no impact on the consolidated financial statements of the Group.

B. Investment in subsidiaries and Joint Venture

The investment in subsidiary and Joint venture are carried at cost as per IND AS 27. The Group regardless of the nature of its involvement with an entity (the investee), determines whether it is a parent by assessing whether it controls the investee. The Group controls an investee when it is exposed, or has rights, to variable returns from its

involvement with the investee and has the ability to affect those returns through its power over the investee. Thus, the Group controls an investee if and only if it has all the following:

- (a) power over the investee;
- (b) exposure, or rights, to variable returns from its involvement with the investee and
- (c) the ability to use its power over the investee to affect the amount of the returns.

Investments are accounted in accordance with IND AS 105 when they are classified as held for sale. On disposal of investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss

C. Current versus non-current classification

The Group presents assets and liabilities in the balance sheet based on current/ non-current classification.

An asset is treated as current when it is:

- a) Expected to be realised or intended to be sold or consumed in normal operating cycle
- b) Held primarily for the purpose of trading
- c) Expected to be realised within twelve months after the reporting period, or
- d) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- (a) It is expected to be settled in normal operating cycle
- (b) It is held primarily for the purpose of trading
- (c) It is due to be settled within twelve months after the reporting period, or
- (d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Notes to the Consolidated financial statements

For the year ended March 31, 2020 (Contd.)

(All amounts are presented in ₹ Lakhs, unless otherwise stated)

Operating cycle

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Group has identified twelve months as its operating cycle.

D. Foreign currencies

Functional and presentational currency

The Group's financial statements are presented in Indian Rupees (₹) which is also the Group's functional currency.

Transactions and balances

Transactions in foreign currencies are initially recorded by the Group at the functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Differences arising on settlement or translation of monetary items are recognised in statement of profit and loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

E. Property, plant and equipment

Capital work in progress, plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Cost comprises the purchase price (net of Input Tax Credit) and any directly attributable cost to bring assets to working condition. When significant parts of property, plant and equipment are required to be replaced at intervals, Group depreciates them

separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the property, plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in profit or loss as incurred.

Items of stores and spares that meet the definition of plant, property and equipment are capitalized at cost and depreciated over their useful life. Otherwise, such items are classified as inventories.

- An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss when the asset is derecognised.

Depreciation on property, plant and equipment

Depreciation is calculated on a straight-line basis over the estimated useful lives as estimated by the management which is in line with the Schedule II to the Companies Act, 2013. The Group has used the following useful lives to provide depreciation on its Property, plant and equipment which is in line with schedule II:

Assets	Useful Lives estimated by the management (in years)
Lease hold land	99
Factory Building	30
Other Building	30 to 60
Computers	3
Office equipment's	5
Furniture and fixtures	10
Vehicles	5

The management has estimated, supported by independent assessment by professionals, the useful life of the following class of asset, which are higher/different than that indicated in Schedule II.

Notes to the Consolidated financial statements

For the year ended March 31, 2020 (Contd.)

(All amounts are presented in ₹ Lakhs, unless otherwise stated)

Assets	Useful Lives estimated by the management (in years)
Plant and Machineries	9-21
Plant and Machineries (Robots)	12
Moulds	9

Leasehold land and leasehold improvement is amortised on a straight line basis over the period of lease term.

The residual value of property, plant and equipment is considered at 2%.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at the end of each financial year and adjusted prospectively, if appropriate.

F. Intangible assets

Recognition and measurement

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization. Internally generated intangible assets, excluding capitalized development costs, are not capitalized and expenditure is reflected in the statement of profit and loss in the year in which the expenditure is incurred.

Amortisation and useful lives

Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible assets may be impaired. The amortization period and amortization method of the intangible asset with a useful finite life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the assets are considered to modify the amortization period or method, as appropriate, and are treated as changes in accounting estimates. The amortization expense on intangible assets with finite lives is recognized in the statement of profit and loss unless such expenditure forms part of carrying value of another assets.

Intangible Assets	Estimated Useful Life (Years)
Computer Software	Over the estimated economic useful lives of 4 years
Technical Know-how	Over the period of Technical Assistance Agreement i.e. 8 years

Gain or loss arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

G. Investment Property

Property that is held for long term rental yields or for capital appreciation or for both, and that is not occupied by the Group, is classified as investment property. Investment property is measured initially at its cost, including related transaction cost and where applicable borrowing costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any. Subsequent expenditure is capitalized to assets carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Group and the cost of the item can be measured reliably. When significant parts of investment property are required to be replaced at intervals, the Group depreciates them separately based on their respective useful lives. All other repair and maintenance cost are expensed when incurred.

Though the Group measures investment property using cost based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on an annual evaluation performed by an external independent valuer applying a valuation model as per Ind AS 113 "Fair value measurement". Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal.

Investment properties are depreciated using straight line method over their estimated useful life.

Notes to the Consolidated financial statements

For the year ended March 31, 2020 (Contd.)

(All amounts are presented in ₹ Lakhs, unless otherwise stated)

Transfer of property from investment property to the property, plant and equipment is made when the property is no longer held for long term rental yields or for capital appreciation or both at carrying amount of the property transferred.

H. Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

I. Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

i. Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

Land & Building: 2-12 years

Equipments : 15 years

If ownership of the leased asset transfers to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

The right-of-use assets are also subject to impairment. Refer to the accounting policies in section Impairment of non-financial assets.

ii. Lease Liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

iii. Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

Notes to the Consolidated financial statements

For the year ended March 31, 2020 (Contd.)

(All amounts are presented in ₹ Lakhs, unless otherwise stated)

Group as a lessor

Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

Land under Finance lease

The Group has lands allotted by authorities for a lease term of ninety-nine years. These lands were acquired by paying the consideration, which reflected the prevalent market price and upfront payment of all future lease rentals. There are no further lease rental obligations upon the Group to be paid to the Authority. There are no restrictions on usage or transfer of the land to any party by the Group. In view of aforesaid facts and circumstances, the Group has classified these lands as finance lease.

J. Inventories

Inventories which comprise raw material, work in progress, finished goods, traded goods and stores and spares are valued at the lower of cost and net realisable value.

The basis of determining costs for various categories of inventories is as follows:

- **Raw materials, components, stores and spares:** Cost of inventories comprises all cost of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted moving average basis.
- **Work-in-progress and finished goods:** Cost includes direct material plus appropriate share of labour, manufacturing overheads based on normal operating capacity. Cost is determined on a weighted moving average basis.

- **Traded goods:** Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on moving weighted average basis.

Stores and spares which do not meet the definition of Property, plant and equipment are accounted as inventories.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

Scraps are valued at net realisable value

The net realisable value of work-in-progress is determined with reference to the selling prices of related finished goods. Raw materials and other supplies held for use in production of finished goods are not written down below cost, except in cases where material prices have declined, and it is estimated that the cost of the finished goods will exceed its net realisable value. The comparison of cost and net realizable value is made on an item-by-item basis.

K. Impairment of non-financial assets

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating units' (CGU) net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if

Notes to the Consolidated financial statements

For the year ended March 31, 2020 (Contd.)

(All amounts are presented in ₹ Lakhs, unless otherwise stated)

available. If no such transactions can be identified, an appropriate valuation model is used.

Impairment losses on non-financial asset, including impairment on inventories, are recognized in the statement of profit and loss.

An assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Group estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit or loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

L. Revenue from contract with customer

Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services. The Group has generally concluded that it is the principal in its revenue arrangements, because it typically controls the goods before transferring them to the customer.

However, Goods and services tax (GST), is not received by the Group on its own account. Rather, it is tax collected on value added to the commodity by the seller on behalf of the government. Accordingly, it is excluded from revenue.

M. Sale of goods

Revenue from sale of goods (including tools) is recognized at the point in time when control of the inventory is transferred to the customer, generally on delivery of the equipment. The normal credit term is 30 to 90 days upon delivery.

The Group considers whether there are other promises in the contract that are separate performance obligations to which a portion of the transaction price needs to be allocated. In determining the transaction price for the sale of goods, the Group allocated a portion of the transaction price to goods bases on its relative Consolidated prices and also considers the following:

Schemes

The Group operates several sales incentive programmes wherein the customers are eligible for several benefits on achievement of underlying conditions as prescribed in the scheme programme such as discounts. Revenue from contract with customer is presented deducting cost of all these schemes.

Contract balances

Contract assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Group performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional.

Trade receivables

A receivable represents the Group's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Group transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Group performs under the contract.

Notes to the Consolidated financial statements

For the year ended March 31, 2020 (Contd.)

(All amounts are presented in ₹ Lakhs, unless otherwise stated)

N. Interest Income

For all debt instruments measured at amortized cost or at fair value through other comprehensive income, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instruments or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortized cost of a financial liability. When calculating the effective interest rate, the Group estimates the expected estimated cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit loss. Interest income is included under the head "other income" in the statement of profit and loss.

Interest income on bank deposits and advances to vendors is recognized on a time proportion basis taking into account the amount outstanding and the applicable interest rate. Interest income is included under the head "other income" in the statement of profit and loss.

O. Dividend Income

Revenue is recognised when the Group's right to receive the payment is established, which is generally when shareholders approve the dividend.

P. Rental Income

Rental income arising from operating leases are accounted for on a straight-line basis over the lease terms and is included in revenue in the statement of profit or loss due to its operating nature.

Q. Government grants

Government grants are recognized where there is reasonable assurance that the grant will be received and all the attached conditions will be complied with. When the grant relates to an expense item, it is recognized as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognized as income in equal amounts over the expected useful life of the related asset.

When the Group receives grants of non-monetary assets, the asset and the grant are recorded at fair value amounts and released to profit or loss over the expected useful life in a pattern of consumption of the benefit of the underlying asset i.e. by equal annual instalments. When loans or similar assistance are provided by governments or related institutions, with an interest rate below the current applicable market rate, the effect of this favourable interest is regarded as government grant. The loan or assistance is initially recognized and measured at fair value and the government grant is measured as the difference between the initial carrying value of the loan and the proceeds received. The loan is subsequently measured as per the accounting policy applicable to financial liabilities.

R. Retirement and other employee benefits

Retirement benefit in the form of provident fund is a defined contribution scheme. The Group has no obligation, other than the contribution payable to the provident fund. The Group recognizes contribution payable to the provident fund scheme as an expense, when an employee renders the related service.

The Group operates defined benefit plans for its employees, viz., gratuity. The costs of providing benefits under these plans are determined on the basis of actuarial valuation at each year-end. Separate actuarial valuation is carried out for each plan using the projected unit credit method. Actuarial gains and losses for both defined benefit plans are recognized in full in the period in which they occur in the statement of profit and loss.

Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. The Group measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The Group treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purpose. Such long term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end.

Notes to the Consolidated financial statements

For the year ended March 31, 2020 (Contd.)

(All amounts are presented in ₹ Lakhs, unless otherwise stated)

The Group presents the leave as a current liability in the balance sheet to the extent it does not have an unconditional right to defer its settlement for 12 months after the reporting date. Where Group has the unconditional legal and contractual right to defer the settlement for a period beyond 12 months, the same is presented as non-current liability.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods.

Past service costs are recognised in profit or loss on the earlier of:

- The date of the plan amendment or curtailment, and
- The date that the Group recognises related restructuring costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Group recognises the following changes in the net defined benefit obligation as an expense in the statement of profit and loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income

S. Provisions

General

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

When the Group expects some or all of a provision to be reimbursed, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain.

The expense relating to a provision is presented in the statement of profit and loss, net of any reimbursement. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. The unwinding of discount is recognised in the statement of profit and loss as a finance cost.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources would be required to settle the obligation, the provision is reversed.

T. Taxes

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognized outside profit or loss is recognized outside profit or loss (either in other comprehensive income (OCI) or in equity). Current tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

Notes to the Consolidated financial statements

For the year ended March 31, 2020 (Contd.)

(All amounts are presented in ₹ Lakhs, unless otherwise stated)

- In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.
- In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

U. Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Group's cash management.

V. Earnings per share (EPS)

Basic EPS amounts are calculated by dividing the profit for the year attributable to the shareholders of the Group by the weighted average number of equity shares outstanding as at the end of reporting period.

Diluted EPS amounts are calculated by dividing the profit attributable to the shareholders of the Group by the weighted average number of equity shares outstanding during the year plus the weighted average number of Equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares.

W. Contingent liabilities and contingent assets

A contingent liability exists when there is a possible but not probable obligation, or a present obligation that may, but probably will not, require an outflow of resources, or a present obligation whose amount cannot be estimated reliably. Contingent liabilities do not warrant provisions, but are disclosed unless the possibility of outflow of resources is remote. Contingent assets are neither recognised nor

Notes to the Consolidated financial statements

For the year ended March 31, 2020 (Contd.)

(All amounts are presented in ₹ Lakhs, unless otherwise stated)

disclosed in the financial statements. However, contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognised in the period in which the change occurs.

X. Cash dividend to equity holders of the parent

The Group recognises a liability to make cash dividend to equity holders of the parent when the distribution is authorised and the distribution is no longer at the discretion of the Group. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

Y. Segment reporting

Identification of segments

The Group's operating businesses are organized and managed separately according to the nature of products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets. The analysis of geographical segments is based on the areas in which major operating divisions of the Group operates.

Z. Assets held for sale

The Group classifies current and non-current assets and disposal groups as held for sale if their carrying amounts will be recovered principally through a sale rather than through continuing use. Actions required to complete the sale should indicate that it is unlikely that significant changes to the sale will be made or that the decision to sell will be withdrawn. Management must be committed to the sale expected within one year from the date of classification.

For these purposes, sale transactions include exchanges of non-current assets for other non-current assets when the exchange has commercial substance. The criteria for held for sale classification is regarded met only when the assets or disposal group is available for immediate sale in its present condition, subject only to terms that are usual and customary for sales of such assets, its sale is

highly probable; and it will genuinely be sold, not abandoned. The Group treats sale of the asset to be highly probable when:

- The appropriate level of management is committed to a plan to sell the asset,
- An active programme to locate a buyer and complete the plan has been initiated,
- The asset is being actively marketed for sale at a price that is reasonable in relation to its current fair value,
- The sale is expected to qualify for recognition as a completed sale within one year from the date of classification, and
- Actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

Non-current assets held for sale to owners and disposal groups are measured at the lower of their carrying amount and the fair value less costs to sell. Assets and liabilities classified as held for sale are presented separately in the balance sheet.

Property, plant and equipment and intangible assets once classified as held for sale to owners are not depreciated or amortised.

A disposal group qualifies as discontinued operation if it is a component of an entity that either has been disposed of, or is classified as held for sale, and:

- Represents a separate major line of business or geographical area of operations,
- Is part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations.

Discontinued operations are excluded from the results of continuing operations and are presented as a single amount as profit or loss after tax from discontinued operations in the statement of profit and loss.

Additional disclosures are provided in Note 14. All other notes to the financial statements mainly include amounts for continuing operations, unless otherwise mentioned.

Notes to the Consolidated financial statements

For the year ended March 31, 2020 (Contd.)

(All amounts are presented in ₹ Lakhs, unless otherwise stated)

AA. Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- (a) In the principal market for the asset or liability, or
- (b) In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

At each reporting date, the management analyses the movements in the values of assets and liabilities which are required to be re-measured or re-assessed as per the Group's accounting policies. For this analysis, the management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents, if any

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

This note summarises accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- Quantitative disclosure of fair value measurement hierarchy
- Financial instruments (including those carried at amortised cost)

BB. Financial instruments

A financial instrument is a contract that gives rise to a financial asset for one entity and a financial liability or equity instrument for another entity.

Financial Assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Financial assets at amortised cost (debt instruments)

Notes to the Consolidated financial statements

For the year ended March 31, 2020 (Contd.)

(All amounts are presented in ₹ Lakhs, unless otherwise stated)

- Financial assets at fair value through other comprehensive income (FVTOCI) with recycling of cumulative gains and losses (debt instruments)
- Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)
- Financial assets at fair value through profit or loss

Financial assets at amortised cost (debt instruments)

A financial asset is measured at the amortised cost if both the following conditions are met

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The accretion of EIR is recorded as an income or expense in statement of profit and loss. The losses arising from impairment are recognised in the statement of profit and loss. This category generally applies to trade and other receivables.

Financial assets at fair value through OCI (FVTOCI) (debt instruments)

A 'financial asset' is classified as at the FVTOCI if both of the following criteria are met:

- The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each

reporting date at fair value. For debt instruments, at fair value through OCI, interest income, foreign exchange revaluation and impairment losses or reversals are recognised in the profit or loss and computed in the same manner as for financial assets measured at amortised cost. The remaining fair value changes are recognised in OCI. Upon derecognition, the cumulative fair value changes recognised in OCI is reclassified from the equity to profit or loss.

The Group's debt instruments at fair value through OCI includes investments in quoted debt instruments included under other non-current financial assets.

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are carried in the balance sheet at fair value with net changes in fair value recognised in the statement of profit and loss.

This category includes derivative instruments and listed equity investments which the Group had not irrevocably elected to classify at fair value through OCI. Dividends on listed equity investments are recognised in the statement of profit and loss when the right of payment has been established.

De-recognition

A financial asset (or, where applicable, a part of a financial asset) is primarily derecognised (i.e. removed from the Group's Balance Sheet) when:

- The contractual rights to receive cash flows from the asset has expired, or
- The Group has transferred its contractual rights to receive cash flows from the financial asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Notes to the Consolidated financial statements

For the year ended March 31, 2020 (Contd.)

(All amounts are presented in ₹ Lakhs, unless otherwise stated)

Financial Liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade and other payables, loans and borrowings etc.

Subsequent measurement

For purposes of subsequent measurement, financial liabilities are classified in two categories:

- Financial liabilities at amortised cost
- Financial liabilities at fair value through profit and loss (FVTPL)

Financial liabilities at Amortized cost

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in the statement of profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss. This category generally applies to borrowings.

De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

CC. Impairment of financial assets

In accordance with Ind-AS 109, the Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

Financial assets that are debt instruments, and are initially measured at fair value with subsequent measurement at amortised cost e.g., trade and other receivables, security deposits, loan to employees, etc.

The Group follows 'simplified approach' for recognition of impairment loss allowance for trade receivables.

The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original effective interest rate.

As a practical expedient, the Group uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historically observed default rates are updated and changes in the forward-looking estimates are analysed.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as an expense in the statement of profit and loss.

DD. Business Combination

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred.

Notes to the Consolidated financial statements

For the year ended March 31, 2020 (Contd.)

(All amounts are presented in ₹ Lakhs, unless otherwise stated)

At the acquisition date, the identifiable assets acquired, and the liabilities assumed are recognised at their acquisition date fair values. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition fair values irrespective of the fact that outflow of resources embodying economic benefit is not probable.

Business Combinations involving entities or businesses in which all the combining entities or businesses are ultimately controlled by the same party or parties both before and after the business combination, and where that control is not transitory is accounted using the pooling of interests method as enumerated below:

- The assets and liabilities of the combining entities are reflected at their carrying amounts.
- No adjustments are made to reflect fair values or recognise any new assets or liabilities.

The only adjustments that are made are to harmonise accounting policies.

- The financial information in the financial statements in respect of prior periods should be restated as if the business combination had occurred from the beginning of the preceding period in the financial statements, irrespective of the actual date of the combination. However, if business combination had occurred after that date, the prior period information shall be restated only from that date.
- The identity of the reserves shall be preserved and shall appear in the financial statements of the transferee in the same form in which they appeared in the financial statements of the transferor.

2.4 Standards issued but not effective

There are no standards that are issued but not yet effective on March 31, 2020.

Notes to the Consolidated financial statements

For the year ended March 31, 2020 (Contd.)

(All amounts are presented in ₹ Lakhs, unless otherwise stated)

3. PROPERTY, PLANT AND EQUIPMENT AND CAPITAL WORK IN PROGRESS

A. Goodwill	16.64	16.64
Total	16.64	16.64

5 RIGHT-TO-USE ASSETS

(i) The Group lease asset primarily consist of leases for land and buildings and equipment of various lease terms. Effective April 1, 2019, the Group adopted Ind AS 116 "Leases" and applied the standard to all lease contracts existing on April 1, 2019 using the modified retrospective method. Consequently, the Group recorded the lease liability at the present value of the remaining lease payments discounted at the incremental borrowing rate as on the date of transition and has measured right of use asset at an amount equal to lease liability adjusted for any related prepaid and accrued lease payments previously recognised.

(ii) The following is the summary of practical expedients elected on initial application:

- Applied a single discount rate to a portfolio of leases of similar assets in similar economic environment with a similar end date
- Applied the exemption not to recognise right-of-use assets and liabilities for leases with less than 12 months of lease term on the date of initial application
- Excluded the initial direct costs from the measurement of the right-of-use asset at the date of initial application
- Applied the practical expedient by not reassessing whether a contract is, or contains, a lease at the date of initial application. Instead applied the standards only to contracts that were previously identified as leases under Ind AS 17.
- Used hindsight in determining the lease term where the contract contained options to extend or terminate the lease

(iii) Disclosures regarding gross block of right to use assets, accumulated amortisation and net block are as given below:

	Equipments	Land and Building	Total
Cost			
At April 1, 2019	230.60	1,366.71	1,597.31
Add: Additions	205.84	1,366.00	1,571.83
Less: Disposals	-	-	-
At March 31, 2020	436.44	2,732.71	3,169.15
Amortisation			
At April 1, 2019	-	-	-
Add: Amortisation charge for the year	20.98	414.50	435.48
Less: Disposals	-	-	-
At March 31, 2020	20.98	414.50	435.48
Net book value			
At March 31, 2020	415.46	2,318.21	2,733.67
At April 1, 2019	230.60	1,366.71	1,597.31

Notes to the Consolidated financial statements

For the year ended March 31, 2020 (Contd.)

(All amounts are presented in ₹ Lakhs, unless otherwise stated)

- (iv) The following is the carrying value of lease liability on the date of transition and movement thereof during the year ended March 31, 2020:

	Equipments	Land and Building	Total
Cost			
At April 1, 2019	230.60	1,366.71	1,597.31
Add: Additions	205.84	1,365.99	1,571.83
Add : Finance cost accrued during the year	1.08	198.18	199.26
Less: Disposals	-	-	-
Less: Payment of lease liabilities	(17.10)	(482.06)	(499.16)
At March 31, 2020	420.42	2,448.82	2,869.24
Current			733.79
Non Current			2,135.46

- (v) The adoption of the new standard has also resulted in decrease in profit before tax and profit for the year by ₹ 135.57 lakhs (Increase in Depreciation expense and finance cost by ₹ 435.48 lakhs and ₹ 199.26 lakhs respectively with corresponding decrease in other expense by ₹ 499.16 lakhs). The effect of this adoption is insignificant on earnings per share. Ind AS 116 has also resulted in an increase in cash inflows from operating activities and an increase in cash outflows from financing activities on account of lease payments by ₹ 499.16 lakhs each. Total Deferred tax expense and deferred tax liabilities are decreased by ₹ 21.36 lakhs.
- (vi) The weighted average incremental borrowing rate applied to lease liabilities as at April 1, 2019 is 8.66% Per annum.
- (vii) Rental expense recorded for short-term leases was ₹ 238.90 lakhs for the year ended March 31, 2020. (refer note 34)
- (viii) The Group does not face a significant liquidity risk with regard to its lease liabilities as the current assets are sufficient to meet the obligations related to lease liabilities as and when they fall due.

Notes to the Consolidated financial statements

For the year ended March 31, 2020 (Contd.)

(All amounts are presented in ₹ Lakhs, unless otherwise stated)

	As at March 31, 2020	As at March 31, 2019
During the year Company has received the show cause notice cum demand from the Assistant Commissioner of the Goods and Service Tax, Nasik Aurangabad, alleging that the company has availed the cenvat credit of ₹ 0.049 lakhs twice on the same invoice one in the month of January 2017 and then again in the subsequent month. Furthermore, Company has also availed the cenvat credit of ₹ 0.98 lakhs during the month of March 2017 and April 2017. Thus there is demand cum show cause notice of ₹ 1.03 lakhs for inadmissible credit availed by the Company.	1.03	-
During the year Company has received demand cum show cause notice of ₹ 17.15 lakhs from the Assistant Commissioner of Goods and Service Tax alleging that the company has availed the cenvat credit on the basis of invoices which are not fulfilling the particulars as specified under Rule 4A of the Service Tax Rules, 1994.	17.15	-
During the year Company has received demand cum show cause Notice dated January 24, 2020 from the department alleged that the company has availed the duty drawback on the basis of unrealised sale proceeds and thus the duty drawback of ₹ 19.24 lakhs should be recovered from the company against such shipping bills. The company has filed the reply to the assistant commissioner of customs inland container depot, tkd, dated February 07, 2020 against the above show cause notice where in the company has surrendered the Duty Drawback of ₹ 0.52 lakhs along with interest to the ICD, Tughlakabad, New Delhi.	19.24	-
Subsidiaries:		
Company has taken bank guarantee out of non fund limit with HDFC Bank Limited amounting to ₹ 400 lakhs	127.58	-
The Company has received assessment order from Maharashtra Value Added Tax department towards non-furnishing of "C" forms by Company along with interest and penalty for Financial Year 2012-13, amounting to ₹ 2.23 Lakh. The Company has filed an appeal against the said order with appropriate authorities. During the year the company has paid the amount and the case is closed.	-	2.23

- (c) The Holding Company had entered into an agreement with the Bhosari Unit Workmen Union on September 13, 2003, vide which option for VRS was given to the workers of the Holding Company. Accordingly, benefits under the said scheme were paid to 27 workmen who opted for the scheme. Out of these 27 workmen, 20 workmen later filed a case against the Holding Company on the grounds of Unfair Labour Practices at the Labour court. The Court has passed an order in the favour of the workmen on June 26, 2019. Further, the Holding Company has challenged the said order and filed revision application dated July 26, 2019 in the Industrial Court, Pune on the grounds that the said order is defective and bad at law. The Holding Company is of the view, based on the advice of the case advocate, that the final outcome of the case would be in the favour of the Holding Company and hence, no provision has been made in the books of accounts.

Notes to the Consolidated financial statements

42 | FINAL DIVIDEND

The Board of Directors of Holding Company has passed the resolution by way of circulation on June 17, 2020 for declaration of dividend @ 150% of ₹ 3 per equity share of face value of ₹ 2 each (included of ₹ 100% interim Dividend of ₹ 2 each paid) (March 31, 2019: ₹ 2 per share of face value of ₹ 2 each).

43 | SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Judgements

In the process of applying the Group's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements:

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the company. Such changes are reflected in the assumptions when they occur.

Defined benefit plans (gratuity benefits)

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans, the management considers the interest rates of government bonds.

The mortality rate is based on publicly available mortality tables. Those mortality tables tend to change only at interval. Future salary increases and gratuity increases are based on expected future inflation rates.

Further details about gratuity obligations are given in Note 39.

44 | CAPITAL MANAGEMENT

For the purpose of the Group's capital management, capital includes issued equity capital, all equity reserves attributable to the equity holders of the group. The primary objective of the Group's capital management is to maximise the shareholders' value.

The Group manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants, if any. To maintain or adjust the capital structure, the Group reviews the fund management at regular intervals and take necessary actions to maintain the requisite capital structure. No changes were made in the objectives, policies or processes for managing capital during the years ended March 31, 2020 and March 31, 2019.

Notes to the Consolidated financial statements

For the year ended March 31, 2020 (Contd.)

(All amounts are presented in ₹ Lakhs, unless otherwise stated)

	As at March 31, 2020	As at March 31, 2019
Borrowings including current maturities of long term borrowing (Refer Note no. 20)	2,340.57	1,153.74
Payable for purchase of fixed assets (Refer Note no. 25)	797.62	899.40
Net debts	3,138.19	2,053.13
Capital components		
Equity Share capital	1,363.15	1,363.15
Other equity	43,252.61	46,651.19
Total equity	44,615.76	48,014.34
Capital and net debt	47,753.95	50,067.47
Gearing ratio (%)	6.57%	4.10%

45 | FAIR VALUES

Set out below, is a comparison by class of the carrying amounts and fair value of the Group's financial instruments, other than those with carrying amounts that are reasonable approximations of fair values:

a) Fair value of financial assets:

	Carrying values		Fair values	
	As at March 31, 2020	As at March 31, 2019	As at March 31, 2020	As at March 31, 2019
Financial assets measured at fair value				
Investments in Quoted equity instruments of other entities (valued at fair value through other comprehensive income)*	4,554.64	9,526.13	4,554.64	9,526.13
Investments in unquoted equity instruments of other entities (valued at fair value through other comprehensive income)*	459.52	601.54	459.52	601.54
Investments in Quoted short term investments valued at fair value	1,130.70	1,851.10	1,130.70	1,851.10
Financial Instruments where carrying amounts that are reasonable approximations of fair values:				
Trade receivables	19,277.49	27,754.79	19,277.49	27,754.79
Cash and cash equivalents	3,695.76	2,600.86	3,695.76	2,600.86
Other Bank balances	6,666.05	3,048.12	6,666.05	3,048.12
Deposits with original maturity for more than 12 months from the reporting date	150.00	5.00	150.00	5.00
Loans to employees	91.34	75.00	91.34	75.00
Security deposit	571.10	507.02	571.10	507.02
Interest accrued but not due	158.92	76.02	158.92	76.02
Other recoverables	36.38	48.56	36.38	48.56
Total	36,791.90	46,094.13	36,791.90	46,094.13

Notes to the Consolidated financial statements

For the year ended March 31, 2020 (Contd.)

(All amounts are presented in ₹ Lakhs, unless otherwise stated)

b) Fair value of financial liabilities:

	Carrying values		Fair values	
	As at March 31, 2020	As at March 31, 2019	As at March 31, 2020	As at March 31, 2019
Financial liabilities measured at amortised cost				
Borrowings non current	1,676.23	822.75	1,676.23	822.75
Borrowings current	7,152.41	5,819.81	7,152.41	5,819.81
Current maturity of long term loan	612.50	286.04	612.50	286.04
Current maturity of vehicle loan	51.84	44.95	51.84	44.95
Trade payables	15,739.35	23,892.54	15,739.35	23,892.54
Accrued Salaries	1,292.36	2,380.55	1,292.36	2,380.55
Unsecured deposits from customers	1,122.90	412.73	1,122.90	412.73
Unpaid dividends	22.54	13.08	22.54	13.08
Interest accrued not due	16.40	-	16.40	-
Amount payable for property, plant and equipment	797.62	899.40	797.62	899.40
Total	28,484.14	34,571.84	28,484.14	34,571.84

* The fair values of the FVTOCI financial assets are derived from quoted market prices in active markets.

Management has assessed that remaining financial assets and liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

Discount rate used in determining fair value

The interest rate used to discount estimated future cash flows, where applicable, are based on the incremental borrowing rate of borrower which in case of financial liabilities is average market cost of borrowings of the Group and in case of financial asset is the average market rate of similar credit rated instrument. The Group maintains policies and procedures to value financial assets or financial liabilities using the best and most relevant data available.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

46 | FAIR VALUE HIERARCHY

All financial instruments for which fair value is recognised or disclosed are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole.

Level 1: Quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: Valuation techniques for which the lowest level input that has a significant effect on the fair value measurement are observable, either directly or indirectly.

Level 3: Valuation techniques for which the lowest level input which has a significant effect on the fair value measurement is not based on observable market data.

Notes to the Consolidated financial statements

For the year ended March 31, 2020 (Contd.)

(All amounts are presented in ₹ Lakhs, unless otherwise stated)

The following table provides the fair value measurement hierarchy of the Group's assets and liabilities.

(a) Quantitative disclosures fair value measurement hierarchy for assets as at March 31, 2020:

	Total (Carrying Value)	Quoted prices in active markets (Level 1)	Significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Assets measured at fair value				
Quoted equity shares				
Investments in equity instruments of other entities (at fair value through other comprehensive income)*	4,554.64	4,554.64	-	-
Investments in unquoted equity instruments of other entities (valued at fair value through other comprehensive income)*	459.52	-	459.52	-
Investments in Quoted short term investments valued at fair value	1,130.70	1,130.70	-	-
Others				
Trade receivables	19,277.49	-	-	19,277.49
Cash and cash equivalents	3,695.76	-	-	3,695.76
Other Bank balances	6,666.05	-	-	6,666.05
Deposits with original maturity for more than 12 months from the reporting date	150.00	-	-	150.00
Loans to employees	91.34	-	-	91.34
Security deposit	571.10	-	-	571.10
Interest accrued but not due	158.92	-	-	158.92
Other recoverables	36.38	-	-	36.38
Investment properties	1,815.92	-	1,815.92	-
Total	38,607.82	5,685.34	2,275.44	30,647.04

(b) Quantitative disclosures fair value measurement hierarchy for liabilities as at March 31, 2020:

	Total (Carrying Value)	Quoted prices in active markets (Level 1)	Significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Liabilities measured at fair value				
Borrowings non current	1,676.23	-	-	1,676.23
Borrowings current	7,152.41	-	-	7,152.41
Current maturity of long term loan	612.50	-	-	612.50
Current maturity of vehicle loan	51.84	-	-	51.84
Trade payables	15,739.35	-	-	15,739.35
Accrued Salaries	1,292.36	-	-	1,292.36
Unsecured deposits from customers	1,122.90	-	-	1,122.90
Other Liabilities	16.40	-	-	16.40
Amount payable for property, plant and equipment	797.62	-	-	797.62
Lease liabilities (right to use)	2,869.25	-	-	2,869.25
Total	31,353.38	-	-	31,353.38

Notes to the Consolidated financial statements

For the year ended March 31, 2020 (Contd.)

(All amounts are presented in ₹ Lakhs, unless otherwise stated)

(c) Quantitative disclosures fair value measurement hierarchy for assets as at March 31, 2019

	Total (Carrying Value)	Quoted prices in active markets (Level 1)	Significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Assets measured at fair value				
Investments in Quoted equity instruments of other entities (valued at fair value through other comprehensive income)*	9,526.13	9,526.13	-	-
Investments in unquoted equity instruments of other entities (valued at fair value through other comprehensive income)*	601.54	-	601.54	-
Investments in Quoted short term investments valued at fair value	1,851.10	1,851.10	-	-
Financial Instruments where carrying amounts that are reasonable approximations of fair values:

Notes to the Consolidated financial statements

For the year ended March 31, 2020 (Contd.)

(All amounts are presented in ₹ Lakhs, unless otherwise stated)

48 | FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial liabilities comprise of trade and other payables, borrowings, security deposits and payables for property, plant and equipment. The main purpose of these financial liabilities is to finance the Group's operations. The Group's principal financial assets include trade and other receivables, cash, fixed deposits and security deposits that derive directly from its operations.

The Group is exposed to market risk, credit risk and liquidity risk. The Group's senior management oversees the management of these risks. The Group's senior management is supported by Finance department that advises on financial risks and the appropriate financial risk governance framework for the Group. The Finance department provides assurance to the Group's senior management that the Group's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Group's policies and risk objectives. It is the Group's policy that no trading in derivatives for speculative purposes may be undertaken. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below.

A. Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk. Financial instrument effected by market risk include loans and borrowings, deposits, FVTOCI instrument.

The sensitivity analysis in the following sections relate to the position as at March 31, 2020 and March 31, 2019.

The sensitivity analysis have been prepared on the basis that the amount of net debt, the ratio of fixed to floating interest rates of the debt and derivatives and the proportion of financial instruments in foreign currencies are all constant and on the basis of hedge designations in place at March 31, 2020.

The analysis exclude the impact of movements in market variables on: the carrying values of gratuity and other post-retirement obligations; provisions; and the non-financial assets and liabilities of foreign operations.

The following assumptions have been made in calculating the sensitivity analysis:

The sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at March 31, 2020 and March 31, 2019 including the effect of hedge accounting.

i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's interest bearing financial liabilities includes borrowings with fixed interest rates.

The Group's fixed rate borrowings are carried at amortised cost. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

ii) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Group's exposure to the risk of changes in foreign exchange rates relates primarily to the Group's operating activities (when revenue or expense is denominated in a foreign currency).

The Group transacts business in local currency as well as in foreign currency. The Group has foreign currency trade payables and receivables and is therefore, exposed to foreign exchange risk.

Notes to the Consolidated financial statements

For the year ended March 31, 2020 (Contd.)

(All amounts are presented in ₹ Lakhs, unless otherwise stated)

Foreign currency sensitivity

The following tables demonstrate the sensitivity to a reasonably possible change in foreign exchange rates, with all other variables held constant. The impact on the Group's profit before tax is due to changes in the fair value of monetary assets and liabilities including non-designated foreign currency derivatives and embedded derivatives.

Exposure gain/(loss)	As at March 31, 2020		As at March 31, 2019	
	Change +1%	Change -1%	Change +1%	Change -1%
Trade Payable	(2.95)	2.95	(13.47)	13.47
Trade Receivable	1.31	(1.31)	2.36	(2.36)

iii) Equity Price Risk

The Group's listed and non-listed equity securities are susceptible to market price risk arising from uncertainties about future values of the investment securities. The Group manages the equity price risk through diversification and by placing limits on individual and total equity instruments. Reports on the equity portfolio are submitted to the Group's senior management on a regular basis. The Group's Board of Directors reviews and approves all equity investment decisions.

At the reporting date, the exposure to listed equity securities at fair value was ₹ 4,554.64 lakhs. A decrease of 10% on the NSE market index could have an impact of approximately ₹ 455.46 lakhs on the OCI or equity attributable to the Group. An increase of 10% in the value of the listed securities would also impact OCI and equity. These changes would not have an effect on profit or loss.

B. Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments.

i) Trade receivables

Customer credit risk is managed by Group subject to the Group's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on an extensive credit rating. Outstanding customer receivables are regularly monitored.

An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The maximum exposure to credit risk at the reporting date is the carrying value of financial assets (trade receivable). The Group evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and operate in largely independent markets.

Further, the Group's customer base majorly includes Original Equipment Manufacturers (OEMs), Large Corporates and Tier-1 vendors of OEMs. Based on the past trend of recoverability of outstanding trade receivables, the Group has not incurred material losses on account of bad debts. Hence, no adjustment has been made on account of Expected Credit Loss (ECL) model.

Notes to the Consolidated financial statements

For the year ended March 31, 2020 (Contd.)

(All amounts are presented in ₹ Lakhs, unless otherwise stated)

C. Liquidity risk

Liquidity risk is the risk that the Group may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses. The Group's objective is to, at all times maintain optimum levels of liquidity to meet its cash and collateral requirements. The Group closely monitors its liquidity position and deploys a robust cash management system. It maintains adequate sources of financing including loans from banks at an optimised cost.

The table below summarises the maturity profile of the Group's financial liabilities based on contractual undiscounted payments As at March 31, 2020 :

As on March 31, 2020	On Demand	Less than 1 year	1 to 5 years	> 5 years	Total
Borrowings	7,152.41	664.34	1,676.23	-	9,492.98
Trade and other payables	-	15,739.35	-	-	15,739.35
Other financial liabilities	-	3,251.81	-	-	3,251.81
Total	7,152.41	19,655.50	1,676.23	-	28,484.14

As on March 31, 2019	On demand	Less than 1 year	1 to 5 years	> 5 years	Total
Borrowings	5,820.00	330.99	822.75	-	6,973.54
Trade and other payables	-	23,892.54	-	-	23,892.54
Other financial liabilities	-	3,705.75	-	-	3,705.75
Total	5,820.00	27,929.28	822.75	-	34,571.84

- 49** | The management has analysed that no significant warranty claim is received by the Group in earlier years against the goods manufactured by the Group and further, the seller of traded goods warrants the Group that products will be free from defects in materials and workmanship under normal use and service and agrees to replace any defective parts under the conditions of standard warranty accompanying the products. Therefore, the Group has not made any provision for warranties and claims in its books of accounts for the year ended March 31, 2020.
- 50** | Revenue is measured by the Group at the fair value of consideration received/ receivable from its customers and in determining the transaction price for the sale of products, the Group considers the effects of variable consideration such as price adjustment to be passed on to the customers based on various parameters like negotiation based on savings on material and other factors. Accordingly, revenue for the current year is net of price differences.
- 51** | Pursuant to The Taxation Laws (Amendment) Ordinance, 2019 issued, the tax rates have changed with effect from April 1, 2019, and the Holding company and three of its subsidiaries i.e. Lumax Cornaglia Auto Technologies Private Limited, Lumax Management Services Private Limited and Lumax Mannoh Allied Technologies Limited plans to pay tax at reduced rate and impact of the same has already been considered.
- 52** | With regard to the binding offer issued for acquisition of auto component business with OK Play Group, the Holding Company due to pandemic situation and extended lockdowns disrupting business continuity, the proposed acquisition is being put on hold pending for further review and appropriate decision in future.

Notes to the Consolidated financial statements

For the year ended March 31, 2020 (Contd.)

(All amounts are presented in ₹ Lakhs, unless otherwise stated)

- 53** | With respect to the fact that the negotiation for acquiring the balance stake from the JV partner, Gill Austem in respect of Lumax Gill-Austem Auto Technologies Private Limited is in advance stage, the management is hopeful for favourable outcome and thus the Holding Company does not foresee any material impairment in this regard due to going concern of the JV Company i.e. Lumax Gill-Austem Auto Technologies Private Limited.
- 54** | The Group's business research and development concentrates on the development of Automotive equipment. Research and development costs that are not eligible for capitalisation have been expensed in the period incurred during the year ended March 31, 2019 this was an amount of ₹ 370.56 Lakhs (March 31, 2019: ₹ 286.68 Lakhs), and they are recognised in other expenses.
- 55** | The Group business activity falls within a single business segment i.e. manufacturing and trading of Automotive Components and therefore, segment reporting in terms of Ind-AS 108 on Segmental Reporting is not applicable.
- 56** | World Health Organisation (WHO) declared outbreak of Coronavirus Disease (COVID-19) a global pandemic on March 11, 2020. Consequent to this, Government of India declared lockdown on March 23, 2020 and the group temporarily suspended the operations in all the units of the Group in compliance with the lockdown instructions issued by the Central and State Governments. COVID-19 has impacted the normal business operations of the Group by way of interruption in production, supply chain disruption, unavailability of personnel, closure / lock down of production facilities etc. during the lock-down period which has been extended till May 17, 2020. However, production and supply of goods has commenced during the month of April and May 2020 on various dates at all the manufacturing locations of the Group.
- The Group has made detailed assessment of its liquidity position for the next year and the recoverability and carrying value of its assets comprising property, plant and equipment, intangible assets, right to use assets, investments, inventory and trade receivables. Based on current indicators of future economic conditions, the Group expects to recover the carrying amount of these assets. The situation is changing rapidly giving rise to inherent uncertainty around the extent and timing of the potential future impact of the COVID-19 which may be different from that estimated as at the date of approval of these consolidated financial statements. The Group will continue to closely monitor any material changes arising of future economic conditions and impact on its business.
- 57** | Ind AS financial statements of Transferor Company which has been merged were audited by another firm of Chartered Accountants who had expressed an unqualified opinion on March 31, 2019 financial statements.

The accompanying notes form an integral part of these financial statements
